- **EMC**
- **Motors**
- **Material science**
- **Technical admin, Paralegal work**
- **FEA / CFD, Mechanical Design**

Numatic are based in Somerset, a stones throw from the beautiful Jurassic Coast. We design and manufacture cleaning machines and export them to over 100 countries worldwide. Our Portfolio includes the famous Henry vacuum cleaner and extends to a broad portfolio of large and small machines to clean anything from Hospitals and Airports to Hotels and Homes.

We employ over 1200 people on our 30 acre campus in Somerset and we have just announced a £30m investment to support the expansion of our product offering.

SALARY: £30,000 - £80,000 p.a DOE

If you would like to know more about the above position please contact our Resourcing Team at jobs@numatic.co.uk
